Houdini Handcuff Escape

A SPECIAL PRESENTATION USING BLACK HOLE

You present a card showing a vintage Houdini escape poster. You show on the other side of the card a picture of Harry Houdini handcuffed. You place the card into the Black Hole device decorated with a vintage stage/curtain skin. As you move the card behind the curtains, a miniature set of steel handcuffs drop with a clank and Houdini re-appears from the other side no longer in handcuffs.

Included with Houdini Handcuff Escape:

- (1) self-adhesive vintage stage/curtain "skin"
- (1) double-sided card with poster and Houdini cuffed
- (1) double-sided card with poster and Houdini un-cuffed
- (1) miniature steel handcuffs with key that locks (handcuff design may vary)

Full instructions

To see a video presentation of Houdini Handcuff Escape click the link below

<http://www.youtube.com/watch?v=SBnPDxVenBY>

Please note that to perform the routine as shown in the video you will need a clip, string and other common magic item which are not included

METAMORPHOSIS TRUNK

A SPECIAL PRESENTATION USING BLACK HOLE

You present a vintage post card and then turn it over to reveal it is a photo postcard. The photo is of Harry and Bess Houdini, The Houdinis, shown ready to perform their famous illusion Metamorphosis. The postcard is separated into two halves and Harry is placed in the Black Hole Device which is decorated to look like their actual Metamorphosis Trunk. Harry is secured in the trunk with a rubber band. Bess is placed behind a curtain card and both cards are placed on top of the trunk. One, Two, Three... they have mysteriously switched places. Harry is behind the curtain card and Bess in the trunk.

Included with Metamorphosis Trunk:

- (1) Authentic Houdini's vintage Metamorphosis poster with stand.
 - (1) Self-adhesive Metamorphosis Trunk "skin"
 - (1) Double-sided curtain card
 - (1) Double-sided postcard card
 - (4) Halves of the postcard (2 Harry and 2 Bess)
 - (3) Rubber bands (1 large to secure Harry and 2 small to use to secure the skin when practicing)
- Full instructions

PROTECT THE GRAIL

A SPECIAL PRESENTATION USING CREDIT SLASHER

You present two cards. You show a card of a stained glass window picturing the Holy Grail and explain the legend of the Holy Grail. You next show a Knights Templar card front and back and explain their role as protectors of the Holy Grail. You place the two cards together in the Vault (Credit Slasher device) and then take the Credit Slasher broad sword and clearly pierce through the two cards while they can be seen from the top to be in place. A devilish Magic Trick with a new interesting theme similar to those in movies like The DaVinci Code or Raiders of the Lost Ark.

Included with Protect the Grail:

- (1) double-sided Holy Grail Card with transparent stained glass section
- (1) double-sided Knights Templar Card
- Full instructions

SHERLOCK HOLMES CLOCK

A SPECIAL PRESENTATION USING FUTURE CLOCK AND MIND SCANNER

This is an interesting presentation based on two items once owned by Sherlock Holmes, a clock (Future Clock) and a business card holder (Mind Scanner). The clock was specially made by the visionary inventor Jules Verne for Sherlock Holmes. When the clock is within the confines of London, the clock automatically synchronizes with the Parliament Tower Clock a.k.a. Big Ben. If the clock loses time outside of London, a special card can be used to set the clock. To prove how this works, the magician has an audience member draw a time on the Big Ben card and then places the card face down in the card case without the magician seeing it. The magician then hands over the clock and it is set to the time drawn on the Big Ben card. Other cards are included to support the presentation. The note card of Jules Verne sets up the premise that the clock was made by him especially for Sherlock and that it has a unique feature way ahead of its time. There is also a printed invitation from Harry Houdini (an actual item that exists) and a business card complete with blood stains from Sweeney Todd to be placed in the card case. The extra cards support that the Mind Scanner is Sherlock Holmes business card holder where he carries his business cards (which includes an ambigram) and the cards of people he would run into in London in the late 19th century.

Included with Sherlock Holmes Clock:

- (1) self-standing Sherlock Holmes Clock poster
 - (16) Big Ben cards which can be re-used if marked with the included pencil
 - (1) soft lead pencil with eraser
 - (1) Sherlock Holmes business card with ambigram
 - (1) note card from Jules Verne
 - (1) invitation from Harry Houdini to a London Magic Club (replica of an actual item)
 - (1) Sweeney Todd business card
- Full instructions

Surprise Camera :-)

A SPECIAL PRESENTATION USING BLACK HOLE

You present the latest techno gadget, an extremely thin and compact digital camera. But it is not the size that makes this camera special. What makes it special is that it can instantly print the picture just taken. A blank photo paper is inserted into the camera and at first a blurred picture comes out. You insert another blank photo paper and ask your subject to remain still this time as you count to five. One, Two, Three, Four, Five. SURPRISE! A funny picture comes out. Use this to tease someone or use it to make a point to someone who might be giving you a hard time as you perform your magic.

Included with Surprise Camera:

- (1) self-adhesive camera lens "skin"
- (1) self-adhesive camera viewfinder "skin"
- (1) picture of monkey
- (1) blurred picture of monkey
- (1) picture of jack ass
- (1) blurred picture of jack ass
- (1) zip lock bag with HP photo paper header and (4) blank photo papers
- Full instructions

VIRTUAL COIN CASE

A SPECIAL PRESENTATION USING BLACK HOLE

The normal presentation for Black Hole leaves a little to be desired. This presentation uses a coin and is similar in theme to Mira Metal. Instead of a red plastic card with a black hole printed in the middle, this presentation uses a card with a US half dollar printed on both sides (obverse and reverse). When the card is placed into the Virtual Coin Case, the case mints the coin right on the spot and the coin drops from the bottom of the case making more of an impressive appearance than a wafer thin plastic circle.

Included with Virtual Coin Case:

- (1) self-adhesive coin case "skin"
- (1) double-sided 2012 US Half Dollar card
- (1) card with hole
- (1) 2012 uncirculated US Half Dollar

UPGRADE FOR

Soft Coins

Soft coins is a great trick but becomes an even better trick when instead of using three pencils and plain paper you use three beautiful swords and a ten dollar bill. The bill is printed on a thick stock that holds the swords perfectly. I have a very limited supply of these really special swords.

Included with Upgrade for Soft Coins:

- (3) Brass and Steel Toledo Swords (sword design may differ)
- (10) Freshly Printed Tens

To See Dave and Craig mention this upgrade on the Wizard Product Review navigate to:

<http://www.youtube.com/watch?v=eecK2JNGs-c>

UPGRADE CARDS FOR MOBILE ILLUSION

The cards that come with Mobile Illusion were just too plain for my liking. These cards show a beautiful assistant printed on a playing card. The permanent cards are two sided with card backs.

Included with Upgrade Cards for Mobile Illusion:

- (2) double sided permanent K of Diamonds card
- (1) double sided permanent K of Diamonds card cut in half
- (1) double-sided permanent K of Diamonds mismatched card
- (8) one-sided K of Diamonds cards to cut during presentation
- (8) one-sided K of Spades cards to cut during presentation

UPGRADE CARD FOR

MINI ZAG

Why Zag a Five of Diamonds when you can actually Zag a beautiful magician's assistant on a playing card?

Included with Upgrade Card for Mini Zag:

- (1) Queen of Hearts with beautiful magician's assistant
- (1) matching gimmick piece

UPGRADE CARDS FOR **4-D SURPRISE**

These flag background cards work just as well as the plain background card provided but they are more visual and help to weave a story either about the importance of the Statue to Americans or the creation and gift of the Statue from France.

Included with Upgrade Card for 4-D Surprise:

- (1) US flag background card
- (1) French flag background card

UPGRADE CARDS FOR

4-DIMENSIONAL TRUNK

I didn't like the use of the tee and ball marker props as the first phase in the standard presentation. Also the sound of opening the gimmick is disturbingly loud. I made this card to use in place of the tee and ball marker. You tell the audience that you have a golf ball in this small briefcase. Of course they do not believe you. You open the case and show them the picture of the golf ball. They look at you sideways. You place the card back into the case and say "watch this." You shake the case and you can hear the card rattling in the case and a "pop" when the ball has become full dimensional. You take out the full size golf ball and close the case. You then say "and now for something really amazing," and you open the case and now there is a picture of a bowling ball ... ??? The visual of the bowling pays homage to J.C. Doty whose original trick was a full size brief case with an actual bowling ball.

Included with Upgrade Card for 4-Dimensional Trunk:

(1) Two sided card with golf ball on one side and bowling ball on the other
Instructions

UPGRADE CARD FOR
CARD FRAME

What better to put in your magical Card Frame than a rare autographed photo of Harry Houdini. Not only does the frame protect the valuable photo from being damaged, but it also makes it invisible so that it is overlooked by possible thieves.

Included with Upgrade Card for Card Frame:

(1) faux autographed Houdini picture

UPGRADE PARTS FOR **BILLSCAPE**

Billscape is an old trick and the original rubber bands that came with the trick are no longer worthy of this great trick. With this upgrade you will get new matching rubber bands in two sizes as well as a replica of the credit card that comes with the trick and a new card to use when doing the second presentation.

Included with Upgrade Parts for Billscape:

- (12) small rubber bands for use with the plates
- (6) larger rubber bands for use with the case
- (1) replica Magician's Card to use when doing the second presentation
- (1) Jackass Card to use when doing the second presentation
